

### Deliver A Complete Video Device Bundle Solution for Zoom Rooms

It is time to optimize your Zoom Rooms with Yealink CP960-UVC Zoom Rooms bundles – the Yealink Optima HD IP Conference Phone CP960 and UVC series camera.

Yealink CP960 Zoom Edition is deeply integrated with Zoom Rooms controller, you can adjust the volume and mute/unmute the microphone directly on it. For its video quality, the UVC series camera supports 1080P/60FPS video, thus greatly enhancing the fluency of video conferencing, making the presentation more vivid even in details, and delivering a vivid face-to-face video conference experience.

#### Key Features and Benefits

##### Three-in-one, easy to use

Yealink released a special edition for Zoom Rooms, one CP960 device acts as the controller for Zoom Rooms, as well as the speakerphone, making the conference table much cleaner.

Yealink CP960 runs the Zoom Rooms controller application providing the ultimate operating experience. Deeply integrated with Zoom Rooms controller, CP960 allows you to easily adjust the volume and mute/unmute the microphone, and the status of CP960 and Zoom Rooms controller are synchronized with each other in real time as well. Meanwhile, you can create a Meet Now conference, join the meeting, start a presentation, and control the camera on the CP960 directly.

##### HD audio

The Yealink CP960 conference phone combines the hardware and software, including the Yealink Noise Proof Technology, to fully improve its audio quality. Thanks to its built-in 3-microphone array, CP960 owns a 20-foot (6-meter) and 360-degree voice pickup range, regarding as an ideal solution for any conference room that needs best audio experience, as if all participants are sitting across the table from each other! Through the two add-on CP Wireless Expansion Mic CPW90, the Yealink CP960 provides long audio-capture distance at a radius of up to 20 meters without any wiring troubles.

##### Immersive visual experience

The optical camera delivers sharp, smooth and stable video at a significant distance. Thanks to its wide-angle horizontal field-of-view lens and adjustable camera angle, the UVC series camera provides a broad view of large conference rooms. UVC series cameras support standard UVC protocol, Plug-and-play USB connection without additional software installation.

##### One-cable makes the deployment easier

Install the UVC series camera and mini PC on the top and at the back of the TV respectively, and the CP960 on the conference table, the signaling and the media data between CP960 and mini PC will be interacted within the LAN that any cable is not needed anymore to connect the TV area and conference table. It saves more time and space and the deployment becomes simpler and simpler.

##### Remote device management

Yealink CP960 Zoom edition is designed for Yealink device management platform and management cloud service, administrators can control all devices remotely on the platform. The platform supports CP960 configuration, firmware upgrading, device resource management, and all these can be pushed to your terminal devices as a regular task whenever you need. Moreover, when the Windows Update is performed, both UVC camera and Yealink Plug-in for Zoom Rooms will be updated to the latest version automatically.
